The AGV Extreme Safety construction protocol means that the K1 S exceeds the requirements of the most recent international standards, making it even safer. The shell is made of **high-resistance thermoplastic material** for minimal encumbrance while the inner shell is in **multidensity EPS**. The safe profile is designed to prevent injury to the collarbone. The **double D fastening** is synonymous with quality and safety and is the same one used in **MotoGP™** helmets.

Discover the **K1 S** range at your
local AGV dealership or at
